This is the Main Form of this application.

Based on their security settings, a user can access all features of the application from this central location. When a User starts this application, their Windows Login ID is used to display all Pending Follow-Up Tasks that have been assigned to that User.

A User also has several choices to manage the program from here.

A User can look at the status of progress made by other Users, as well as their Departments.

Users can add new students, search for registered students, etc., based on a variety of criteria; such as Last Name, Student ID, Terms, Study Agreements, etc., from this form.

Users can also search for Statement of Fees based on other criteria, such as Terms, Study Agreements and Sponsorships.

There are an additional 40+ other forms that comprise this application.

Tools and data from other existing MS-Access applications were imported and integrated with SOF.

Orders List Panel

This panel is used for creating, monitoring, executing and allocation of sales orders. Multiple orders, belonging to one book, can be selected and processed simultaneously. The data grid uses Infragistics' UltraWinGrid, which allows users to sort, filter and rearrange columns. Users can view orders, as well as trade allocations, on the same panel.
